

THE CURE FOR RED ROCK FEVER

Enchantment Resort, Mii amo, and Seven Canyons offer the ultimate golf destination in a national park setting.

SEDONA, ARIZONA: Seven Canyons is a private golf club available exclusively for members and guests staying at Enchantment Resort. Its new world-class clubhouse now matches its world-class surroundings.

“Having the resources behind Enchantment Resort gave us the wherewithal to complete our clubhouse and its amenities,” said Dave Bisbee, director of golf operations at Seven Canyons. “And now, the resort’s guests have access to one of the highest rated courses in the West.”

There is no shortage of outstanding golf courses in Arizona. One doesn’t have to look far for a golf fix in the state, but none offer the spectacular backdrop and setting of Seven Canyons. “It’s remarkable that Weiskopf had the opportunity to design a course in such a special place,” said Bisbee.

“The combination of a renowned resort with a top private golf club is beneficial for both of us,” explained Bisbee. “Reciprocal privileges give our members the amenities of Enchantment Resort and Mii amo, and resort guests can enjoy an exclusive Weiskopf-designed golf course.”

Seven Canyons offers team building exercises for cor-

porate groups staying at Enchantment Resort. One of the most popular is called Team Tee Off, which allows management to sharpen their sales skills in a creative and fun way. “Part of the exercise includes a designated putter being blind-folded while the rest of the foursome remains mute. They have two minutes to communicate the direction of the hole. We’ve shared some great laughs on the outcome,” said Bisbee.

DIFFERENT MEANINGS TO DIFFERENT PEOPLE

Enchantment Resort is enveloped in a secluded canyon of thousand-foot vermilion cliffs.

“I think the name of our resort is spot-on,” vaunted Mark Grenoble, president of Enchantment Group. “People travel to Sedona and Enchantment Resort for multiple reasons. Some come to unplug and relax, others come to recharge their batteries.”

Enchantment Resort recently completed an ambitious \$25 million reinvestment, including renovated guest rooms. Accommodations are all within casitas that blend into the natural landscape of the canyon. Some come with outdoor grills, fireplaces, kitchens or private pools.

“SEVEN CANYONS GOLF CLUB is arresting. You won’t forget it. It is a quality layout reminiscent of classic courses built during the turn of the century. Small greens mitigate shorter holes. Strategy and forethought is required before you pull out your driver.” –TOM WEISKOPF

“A COMMON EXPLANATION we receive from first time visitors is that the ‘photos do not do it justice.’”
– MARK GRENOBLE, PRESIDENT, ENCHANTMENT GROUP

SYMBOL OF NEW BEGINNINGS

The name Mii amo signifies “one’s path or journey.” It was inspired by one of the most spectacular natural settings on earth, Boynton Canyon. Various Native American tribes consider the area and its soaring red cliffs to be their Garden of Eden.

“Many of our guests are here to focus on their physical and spiritual well-being,” said Grenoble. “Whatever their intentions, aspirations or desires are, the knowledgeable team at Mii amo will customize services, treatments, and packages that will fulfill their goals.”

Paying tribute to the wisdom of the people and tribes who have previously graced Boynton Canyon, Grenoble noted several of Mii amo’s treatments have been inspired by Native American beliefs.

“Two of our signature treatments, the Spirit of the Full Moon and Spirit of the New Moon are only offered on days surrounding these specific moon phases,” explained Grenoble. “One represents the symbol of new beginnings and the other represents releasing and letting go.” ■
