

It's All Here

St. Andrews Country Club defines the art of fine living.

BOCA RATON, FLORIDA: “Our job description is quite simple,” expressed Craig Martin, general manager at St. Andrews Country Club. “We strive to look after you like you would look after your loved ones. You’ve earned it. Our members have come to expect the level of service and amenities they enjoy while vacationing at a five-star resort, and that’s exactly what we deliver.”

St. Andrews Country Club offers Arnold Palmer Signature and newly renovated Tommy Fazio II golf courses; the Golf Performance Center with an indoor hitting bay, VI Digital Coaching System and FlightScope Launch Monitor technologies; Tennis Pavilion; Aquatic Center; Fitness Center with Lifecycle and Cybex equipment; a full-service spa; and inventive culinary programming. “We really do offer it all,” lauded Martin. “Another one of our standout selling points is our unparalleled security with infrared perimeter system alerts to our 24-hour roving security force.”

BUILDING MOMENTUM

The club has passed the halfway mark on its \$25 million capital improvement plan. “The investment in club

improvements has paid dividends,” reported Martin. “For the last three years, we have exceeded projections of our membership and real estate sales by 100 percent. St. Andrews Country Club is the leader in the market.

“When you consider the totality of our real estate values, we are a billion-dollar enterprise. It is a responsibility we take seriously,” said Martin.

In the next 18 months, the club will open an 11,000 square-foot, stand-alone spa and salon; remodel its fitness and tennis facilities; and build outdoor lighted pickleball, basketball, and recreational fields.

“Our amenities only tell part of our story,” said Martin. “Unforgettable experiences—big and small—are an everyday occurrence. If you are recovering from surgery or illness, our wait staff will deliver food to your residence. When you arrive at the valet, a detail of your car is available; and, should you join us with friends at one of our restaurants, we will customize the menus with your guests’ names and exclude pricing to ensure an unforgettable meal.” ■
