

For The Love OF THE GAME

St. Andrews Country Club is a true reward for a life well lived.

BOCA RATON, FLORIDA: St. Andrews Country Club is a *billion* dollar enterprise in South Florida. Members of the private community enjoy Arnold Palmer Signature and Tommy Fazio II golf courses, a Golf Performance Center, Tennis Pavilion, Aquatic Center, Fitness Center, a full-service spa, and inventive culinary programming in their backyard.

The club has passed the halfway mark on its \$25 million capital improvement plan and will soon break ground on an 11,000 square-foot, stand-alone spa and salon, and build outdoor lighted pickleball, basketball, and recreational fields. Plans are also underway to remodel its fitness and tennis facilities in 2018.

A PROUD PGA PROFESSIONAL

Paul Clivio's career path to become director of golf was unorthodox. After establishing a successful livelihood in the plastics business, he walked away to work in the bag room at St. Andrews Country Club. "I left a good paying job to

make \$8.50 an hour," recalled Clivio in his thick Boston accent. "I wanted it that bad. Now, 23 years later I'm not only the director of golf but about to become president of the SE Florida chapter of the PGA.

"We put in a lot of hard work all year but mostly during season. Often, we are in the golf shop past dinner time fine tuning events and tournaments to make sure our members experience exceeds their expectations. Being a PGA Professional extends beyond playing and teaching. I think that's why the word 'profession' is in PGA Professional."

Each year, the membership commits to millions of dollars in improvements. "If you love South Florida, there is no better place than St. Andrews," said Clivio. "One of the things that makes St. Andrews so great is the mutual respect between members and management. We're all part of the same team to make the club the best it can be every day." ■

For information on membership, visit StAndrewsCC.com.

A HYDROCOURT SYSTEM makes it possible for St. Andrews Country Club's Har-Tru tennis courts to be watered underground, allowing for nonstop play without dry spots.

THE 10TH ANNUAL MORGAN & FRIENDS FIGHT CANCER GOLF TOURNAMENT, hosted by LPGA resident touring professional Morgan Pressel, raised \$1,000,622, increasing its total contribution to \$6.5 million through the generosity of St. Andrews members.
