## UNMATCHED ACCESSIBILITY

“My father and his partner Ted Kheel, along with the late Oscar de la Renta, had the vision that our corner of the Dominican Republic would resonate with vacationers around the world,” explained Frank Elias Rainieri, COO of Puntacana Resort & Club. “Their tenacity turned what had been a 15,000-acre desolate jungle, with a handful of beachfront rustic shacks, into a worldwide vacation hot

spot that now welcomes 10,000 vacationers *per day* with flights from 28 countries.

“I am pleased to announce that Puntacana Resort & Club is an equally appealing destination to call home,” stated Rainieri. “The Estates at Puntacana Resort & Club offer a lifestyle of relaxation in six palatial communities including Corales, Tortuga, Arrecife, Hacienda, Hacienda del Mar, and Marina. Corales is our most exclusive, low-density offering and, in fact, one of the most prestigious addresses in the Caribbean,” said Rainieri. “It’s a community where neighbors know each other and children often become lifelong friends. Just imagine your private residence on a golf course that Mr. Fazio has described as one of his ‘boldest designs’ ever created.” ■

*“The finishing holes on Corales are nicknamed ‘Devil’s Elbow’ for a reason. They hug the water and the prevailing sea breeze can prove vexing. I was standing on the 16th green and said to myself, ‘you’ve got to do something that’s tournament winning.’ I accomplished my mission.”*
