

BIG CEDAR LODGE

America's Premier Wilderness Resort

OUTSIDE BRANSON, MISSOURI: When Johnny Morris, founder of Bass Pro Shops and noted conservationist, established Big Cedar Lodge, his objective was to create a tribute to the magnificence of nature, preserve the solidarity of the area's history, and build a place to celebrate the joy of family.

The 4,600-acre lakeside retreat (almost 50 times the size of Disneyland) connects guests with a variety of nature-based activities. Existing golf amenities include a Jack Nicklaus Signature par-3 course, a Gary Player short course, and Tom Fazio and Coore/Crenshaw championship courses. Payne's Valley, designed by Tiger Woods, opens for

preview play later this year. The resort's complete golf offering, designed by golf's greats, has established it as "America's next great golf destination."

Most resorts offer a choice of a regular sized hotel room or a suite. At Big Cedar Lodge, you have a selection of 32 different rooming options from grand lodges; rustic lakeside cabins; and exclusive accommodations, including a spa cottage with a most unusual view—a bathroom glass floor showcasing a creek running underneath the building. ■
