

"THE NEW GOLF PERFORMANCE CENTER is spectacular and I am amazed at how educational and energizing it is to hang out there. Especially eye opening is the putting studio and the work of Phil Kenyon and David Angelotti. Even after playing on Tour for over 30 years, they are teaching me so many new concepts to help my game." – DAVIS LOVE III

# TRAINING UNDER ONE ROOF

*The new Golf Performance Center at Sea Island Resort  
combines the best teachers and the latest technology – all with a million-dollar view.*

SEA ISLAND, GEORGIA: Sea Island is the only resort in the world to achieve four Forbes Five-Star ratings 11 years in a row with The Cloister, The Lodge, The Georgian Room, and The Spa at Sea Island receiving the celebrated designation.

Site of the PGA TOUR's RSM Classic for the past ten years, more Tour professionals live, play, or train on Sea Island than any other golf destination in the country.

## QUALITY INSTRUCTION = MAX RESULTS

The seaside Golf Performance Center offers some of the finest practice facilities—indoors and out. Assets include a 300-yard range overlooking St. Simons Sound, multiple target greens, two chipping greens, four putting greens, TrackMan radars, a TrackMan simulator, 3D motion plates, PuttView, and a Zen Green Stage putting platform.

"We offer a comprehensive approach to golf under the trusted expertise of instructors who are leaders in their field, including Phil Kenyon [world renowned putting coach] and Randy Myers [fitness trainer of more than a dozen PGA TOUR players]. Our model covers six core competencies—long game, short game, putting, golf fitness, club fitting, and mental game," said Craig Allan, manager of the Golf Performance Center at Sea Island Resort.

"Your journey begins with a pre-arrival phone interview with our concierge to gather background and determine goals. Everyone has areas of their game they want to work on but our job is to determine the areas that will have the greatest impact," continued Allan. "More often than not, we adjust your customized program while you are here to address strengths and weaknesses and maximize benefits. All of our programming is adaptable and doesn't focus on simply hitting full shots on the practice range. After all, you typically only hit your driver a dozen times during a round. Other aspects of your game have far greater impact on your score and general enjoyment. I like to compare golf to a wheel. All spokes must be in alignment for it to roll smoothly." ■

"THE NEW PUTTING STUDIO has been a huge success, helping us align students' concepts of stroke mechanics with improved green reading structure to help them make more putts."

– CRAIG ALLAN, MANAGER,  
GOLF PERFORMANCE CENTER
