

THE “NEW” NEW SEABURY

Providing a lifestyle in the shadow of Nantucket Sound's glittering blue.

MASHPEE, MASSACHUSETTS (CAPE COD): The Club at New Seabury has been one of the Northeast's most respected clubs in a globally recognized area known for its fishing, sandy shores, and beach lifestyle. Member amenities include two golf courses (Ocean and Dunes), a 42,000 square-foot, newly renovated clubhouse (with unobstructed views of Nantucket Sound), the Cabana Club (with its signature blue beach umbrellas), the Athletic Club (featuring 16 all-weather tennis courts and zero-entry family pool), and five restaurants.

“As the owner, we've invested over \$17 million to re-energize and reimagine The Club at New Seabury,” stated Chris Card, president of The Club at New Seabury. “What had been known as a community with two pretty good courses and typical country club food has been transformed. We now offer best-in-class amenities and world-class golf and tennis instruction. Even our dining experi-

ence rivals what you'll find in Boston's Back Bay or Midtown Manhattan. 95 Shore, our restaurant and bar overlooking Nantucket Sound, showcases a wine wall that displays 828 bottles from over 250 different selections to suit every palate. I knew we were on the right track when *Coastal Living* named our community a 'Best Places to Live on the Coast in 2019.'

“The renovation of the Ocean Course is the final phase, completing a three-year, property-wide renewal program,” continued Card. “All of our rental accommodations have been remodeled, our new state-of-the-art Athletic Club will leave you impressed, and we have the largest pool on Cape Cod. We know recent investments will pay dividends for our members and guests, and we feel very confident that our careful planning has positioned The Club at New Seabury to welcome a new generation to Cape Cod.” ■
