# A CHANGING LANDSCAPE

*Storied Development* was created to serve a new generation of private club members.

COLLEGE GROVE, TENNESSEE: Storied Development is made up of long-time partners Mark Enderle and Mark Yarborough. They are behind a portfolio of private communities in three of the hottest real estate markets in the country. "It's hard to believe a decade has passed since the financial crisis," expressed Enderle. "A new generation of buyers is now eagerly embracing the private club lifestyle."

The name Storied Development is purposeful. "Each of us would like to lead a 'storied' life, so the goal is to provide families that opportunity," said Yarborough. "While every Storied community will offer the best in private golf, it is the family centric activities and amenities that make them so appealing to new buyers. They are looking to create great memories for their families."

Storied Development has a clear vision and adequate capital for success. "Communities take time to develop," explained Enderle. "So, buying the right projects with the right equity partners is critical for success." ■
