

“BIG CEDAR LODGE
 is a one-of-a-kind golf, social,
 entertainment, and environmental
 experience, the like of which
 has never been done.”
 — TOM FAZIO

THE ULTIMATE SPORTSMAN RETREAT

The first Tiger Woods public course opens at Big Cedar Lodge.

HEART OF THE MISSOURI OZARKS: One growth segment in our industry over the last decade has been the rise of destination golf, offering a recipe of stunning scenery in a remote location with limited entertainment options.

The exception is Big Cedar Lodge, a short 10-mile drive from Branson, known for its family-friendly Western themed diversions. “Big Cedar has long been known as ‘America’s Premier Wilderness Resort,’” explained Matt McQueary, assistant director at Big Cedar Lodge. “Our

owner, Johnny Morris [founder of Bass Pro Shops] has long been an avid outdoorsman who initially founded Big Cedar as a premier lake destination. Success led to growth with the addition of a multitude of amenities, including Bass Pro Shops Shooting Academy, Top of the Rock Ozarks Heritage Preserve, and Fun Mountain.”

AMERICA’S NEXT GREAT GOLF DESTINATION

Big Cedar Lodge is a large retreat—eight times the size of Central Park in New York City. Golf options are numerous with a Jack Nicklaus Signature par-3 course, a Gary Player short course, and Tom Fazio and Coore/Crenshaw championship courses.

This year’s newest addition is Payne’s Valley, designed by Tiger Woods. “I couldn’t be more proud to debut my first public access course at Big Cedar Lodge,” praised Tiger Woods. “Payne’s Valley [dedicated in memory of Payne Stewart] is a world-class golf experience in the center of the country.” ■

For more information on seasonal golf packages, please visit BigCedar.com.

“OUR GOLF OPTIONS ARE UNMATCHED in the Midwest with five distinctly different courses. **Top of the Rock**, a Jack Nicklaus Signature par-3 course, is perched high above Table Rock Lake. **Mountain Top**, designed by Gary Player, is a 13-hole short course offering the ultimate in playability with no forced carries or water hazards. Don’t be surprised if a stray North American bison is your gallery on the first tee at **Buffalo Ridge**, designed by Tom Fazio. Two years ago, we opened **Ozarks National**, designed by Bill Coore and Ben Crenshaw, with long range views that stretch into Arkansas. Rounding out our 77 holes of golf is **Payne’s Valley**, designed by Tiger Woods. The course features big greens, clean-cut lines, and is welcoming—even to the high handicapper.” — MATT MCQUEARY
