

Where *Extraordinary* is Standard Fare

*"Nowhere else in the world is there
a golf experience like Punta Espada."*

CAP CANA, DOMINICAN REPUBLIC: Last year, "Zoom" zinged into the Oxford Dictionary's words of the year. It's easy to understand why. The web-based video conferencing service clocked an impressive two *trillion* annualized run rate of meeting minutes hosted online.

"We have become accustomed to virtual Zoom backgrounds, often of a participant's hometown or hobby," said Efren Garcia, director of golf at Punta Espada Golf Club. "When I hop on a conference call, I have no need for a simulated background. My office window in our clubhouse overlooks the natural contours of our oceanfront golf course and the azure colored Caribbean Sea."

Cap Cana is known for its ambitious dimensions. The resort destination is equal to the footprint of San Francisco. Among its marinas (the largest inland marina in the Caribbean), resorts, adventure park, equestrian facilities, three-mile white sandy beach, and residential enclaves is Punta Espada Golf Club—a Jack Nicklaus Signature oceanfront course with eight holes that hug along the craggy edges of the Caribbean's blue waters. "Our growth continues," said Garcia. "A St. Regis is under construction and will soon join our existing Secrets, Hyatt, and The Sanctuary resorts."

A WORLDWIDE PERSPECTIVE

"My initial meeting with the developer of Cap Cana was in London to discuss the possibility of managing an upcoming Champions Tour event scheduled at Punta Espada," recalled Garcia. "During my first site visit, I fell in love. It's hard not to, with water views no matter which way you turn. International flights from 26 countries have direct service into nearby Punta Cana. My previous travels allow me to be in tune with cultural complexities. No matter your hometown, I promise Punta Espada will leave an indelible impression." ■
