

“I am delighted to witness Bear Lakes Country Club’s evolution for its current and future generations of members.” — JACK NICKLAUS

Tradition REDEFINED

WEST PALM BEACH, FLORIDA: During a major renovation, management paid special attention to installing the largest Trackman Range Solutions practice facility in the country. “We have a very large contingent of members with single digit handicaps. Let’s just say we have extremely competitive club championships,” grinned Chris Hull, COO/GM at Bear Lakes Country Club.

“I also happen to be a true foodie at heart,” continued Hull. “It’s important to blend the finest of golf and non-golf services. I credit our overall standards for drawing a membership base that includes families who also belong at historically significant clubs including Baltusrol, Winged Foot, and Oakmont.”

PRACTICE MAKES PERFECT

Bear Lakes Country Club is the latest to take advantage of golf’s technological advances with golf practice facilities that four-time major champion Ernie Els calls the best in South Florida.

The new state-of-the-art facility with Trackman ball-flight technology includes multiple radars situated on both ends of the facility to provide eight data points for members to monitor their performance through an app

on their mobile devices. The renovation also expanded the previous short-game areas from two to three pristine green and bunker complexes that now simulate the conditions experienced on both the Lakes and Links courses in addition to a dedicated wedge range.

LOCATION, LOCATION, LOCATION

Bear Lakes Country Club is located in the heart of South Florida. It shouldn’t come as a surprise its two Jack Nicklaus Signature designs received a little extra care from Nicklaus Design. Jack and his wife Barbara live only minutes away.

“As a native Northeasterner, commute times often proved daunting. If you have ever traveled through the Lincoln Tunnel at rush hour, you know the pain. We have one of the most central locations in Palm Beach. In less time than it takes you to drink a Starbucks Venti, you can be at the PBI Airport Terminal, Gardens Mall, or curling your toes along the miles of beach that have made the area so desirable,” concluded Hull. ■
