

BRIGHT'S CREEK

An Ode to a Sense of Community

"I had thousands of acres to work with at Bright's Creek. For an architect, that's like having all the whiskey, food, and money you wish for at the same time." — TOM FAZIO

The Mill at Bright's Creek

Bright's Creek Lodge

NESTLED IN THE HEART OF NORTH CAROLINA: Bright's Creek is the definition of laid back luxury living. This exclusive gated community boasts unrivaled accessibility to Charlotte, Greenville, and Asheville. "Our location is in perfect proximity to North Carolina's finest attractions and activities while maintaining a sense of tranquil seclusion," remarked Bill Bower, Bright's Creek's General Manager.

The jewel in Bright's Creek's crown is its prestigious Tom Fazio-designed golf course, cradled within a breathtaking valley. "What sets our course apart is its inherent versatility," enthusiastically expressed Mark Ernest, director of golf. "Whether you're a seasoned pro or a novice, you'll find enjoyment here. The layout encourages strategic play, with ample opportunities to navigate shots onto the greens without forced carries. It's a testament to fairness and playability."

One of the biggest differentiators about Bright's Creek is that homes were purposely designed not to

encroach on the perimeter of the course, preserving the surrounding views and sounds in its natural setting. The community also boasts equestrian facilities, a Members Lodge, and their new lifestyle center, The Mill. The state-of-the-art facility is the social hub with commanding panoramic views of the valley. Here, residents and club members can get their heart pumping in the fitness center or lounge by the saltwater pool. The pool bar, firepit, and a two-lane bowling alley, foster a sense of community camaraderie and relaxation.

The Bright's Creek Equestrian Center includes an outdoor arena, miles of trails, and hot/cold shower stalls.

The collective vision of Bright's Creek's owners—Mark, Eddie, and Frank—imbues the community with a newfound vitality. With their temperate four-season climate, Bright's Creek beckons with the promise of early springs and lingering autumns—an irresistible invitation to savor life's simple pleasures in an unparalleled setting. ■

The club is named for a stream that starts atop Wildcat Spur Mountain. The area is so quiet that you can hear a putter strike a golf ball from 100 yards away.

"It was a fun course to design. The meandering creeks, rock outcroppings, and knolls provided me a lot to work with." — TOM FAZIO
