

# A Lasting Legacy

*“Diamante is unlike any property around the world.”* —TIGER WOODS

Future Legacy Club Clubhouse

Tiger Woods with Ken Jowdy

CABO SAN LUCAS, MEXICO: Amidst the day-to-day grind of building your career and managing everyday life, you may become distracted. You might seldom stop to contemplate the broad strokes that make the persona people remember you by. After all, humans are intrinsically motivated by the

need to belong and feel a sense of purpose.

The definition of a lasting legacy is the positive impact your life has on friends, colleagues, and family.

Legacy Club at Diamante Cabo San Lucas was created as a place to call home—grounded in excellent service and casual luxury for family and friends to gather, celebrate, and create memories for generations to come or in a nutshell—creating a lasting legacy.

So, it seems appropriate that the newest truly private, invitation-only club on the Baja Peninsula is named Legacy Club with a stunning Tiger Woods-designed championship golf course. The layout will transport you from the open, arid landscape into a secluded environment of lush vegetation—a true oasis in the desert. Its rolling green

hills and rich verdant landscaping will sit in striking contrast with the existing, gently sloped desert terrain.

Exclusive Legacy Club realty options offer customizable homesites with views of the Pacific Ocean, the Legacy Club course, and vistas of Cabo’s famous sunsets. Homeowners will also have access to exquisite restaurants, a sanctuary-like spa, an impressive clubhouse, a lively mercado, a fish camp, beautiful gathering areas, and a dedicated member experience team.

At the core of the union between Diamante and Tiger Woods is the long-standing working relationship between Woods and Ken Jowdy, Diamante’s founder. Together they set the bar in creating spaces that bring people together.

“I got to know Ken Jowdy more than a decade ago while designing El Cardonal,” said Tiger Woods. “He is one of the best and his knowledge of the area is unmatched. Legacy Club will be way different than El Cardonal. My flourishing tropical course will sit in a low bowl, creating an intimate environment protected from the wind and it will be awash with the stunning visuals and calming sounds of running water. It will be unbelievable.” ■

**“Legacy Club will operate at a higher level. It’s a culmination of what we know best. Golf is a social game and nobody knows better than Tiger on how to make it more social. The course will ultimately colorize our desert coastal landscape.”** — MICHAEL ABBOTT, VP AT DIAMANTE

**“Diamante is more than golf. The depth of our family amenities is among the best in Los Cabos. It is an axiom that has served us well.”** — KEN JOWDY, FOUNDER OF DIAMANTE
