

# The Colors of Aurora Anguilla

*Craft unforgettable moments with your loved ones.*

ANGUILLA, BRITISH WEST INDIES: In 1666, Sir Isaac Newton mapped the color spectrum that contains 12 basic hues. Color communicates so much in life. It has the power to convey moods. Examples include: he was green with envy, or she was red hot mad.

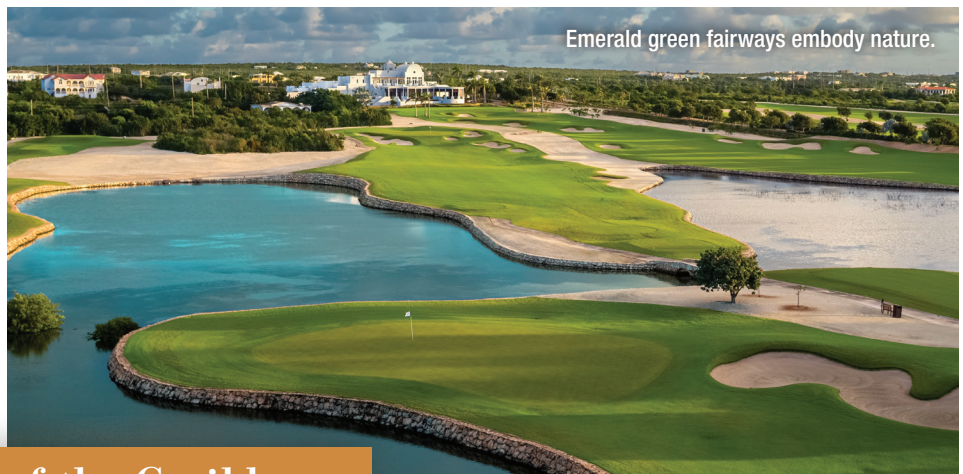

The Mediterranean-themed Aurora Anguilla has put other Caribbean top golf resorts on notice. With its water-color skies, pristine white sand, and striking blue water from peaceful shores, it's easy to see why it was named "Caribbean Golf Resort of the Year for 2024."

It has established a reputation as a getaway for experienced travelers with its shoreline, amenities, unmatched privacy, world-class cuisine, and championship golf. Its two courses—Aurora International (18 holes) and Avalon Links (9 holes)—are the exclusive golf options on the island. Greg Norman (designer of both courses) took advantage of incredible vistas by routing several holes to maximize long views that overlook the bay and the island of St. Maarten. ■

Clear blue waters with purplish accents represent wisdom.

Emerald green fairways embody nature.

## Colors of the Caribbean

Glowing orange sunshine symbolizes the tropics.

Red stage lights ignite passion.

## A Foodies Paradise Amid a Golfing Paradise

"Aurora Anguilla is an idyllic setting. Our top-rated golf courses are quickly building reputations as some of the best in the region. With our reimagined 18-hole International Course, we added a new nine-hole short course called Avalon Links. Both courses not only offer immaculate playing conditions, but you are greeted with breathtaking views. Along with the International Course and Avalon Links, we are proud to offer the Aurora International Golf Academy utilizing Trackman technology to capture all aspects of your swing.

After golf, enjoy picturesque beaches and beachfront accommodations that allow you to relax in unmatched comfort. Dine in one of our six restaurants, then visit our newest addition—the Aurora Entertainment Park. Home to a 500-seat amphitheater, it's also the site of our racquet center and waterpark (with a lazy river and three thrilling water slides). Seeing the enjoyment on your kids face is as they say priceless. If you happen to be with us on a Friday night, consider watching a movie and eating popcorn under the stars. It's a great way to enter the weekend."
